

Recycling Policy

At ICONIC CLEANING, we ensure to keep all our activities environmentally sustainable and friendly.

Working with our customers and their suggestions we strive to adhere to the following:

- Reduction of environmentally harmful chemicals
- Energy and water conservation.
- Increased recycling and waste minimisation.
- Emission reduction from vehicle use.
- Sustainability improvements included in job descriptions and staff objectives.
- Increased provision of Fair-trade goods.
- Commitment to work with the Environment Forum.
- Aiming for continual improvement on carbon emissions, recycling, water consumption, waste production, business mileage and use of sustainable products. All incidents, such as the spillage of chemicals, improper disposal of waste chemicals or other unnecessary emissions to water and the atmosphere must be prevented and reported to line management if they occur.

ICONIC CLEANING ensures the workforce is trained to certify our recycling policy is correctly followed.
